

Flamingos

Advertisement:

We will start advertising in March. Each Sunday we will have an announcement at each service and we will sell insurance in the narthex. Students will be in the service with the flamingos and work the table for insurance policies.

The Flock Flies!

In April, the flamingos will fly. One group is responsible for flock migration each week. Groups include three students and one adult to drive.

The group will meet with Dana on Sunday to go over a list of houses to land in during the week. This will be a list based on those without insurance. The group will fly the flock to their location. Dana will call the driver after a donation has been made. The group will coordinate themselves to move the Flamingos to a new location.

Flock migration may only take place in the evening, so as to keep a sense of intrigue.

Driver Expectation:

Drivers must obey all traffic laws and limitations. Drivers cannot assist with any flock migration, as in moving of the birds. Drivers are simply available for transportation for the birds.

If there is any trouble with Law Enforcement, please contact Dana's cell phone at 608-863-0620.

Credit:

Students will get credit for every week they fly the flamingos. Since it is not guaranteed the Flamingos will fly every night, it is only fair to divide among the number of weeks each student participates in.
